Address: NanHai Ave 3688, ShenZhen, Guangdong, China

EDUCATION

Shenzhen University

(Sep 2022-Jun 2026)

Major: Software engineering

Degree: Bachelor of Engineering

GPA: 3.92/4.5

Ranking: The 7th

PROJECT EXPERIENCE

Anomaly detection model of open scene based on contrast learning and knowledge embedding

Mar.2024

- **Contrast learning | DCT | NLP**
- This is a real-time, interactive anomaly detection system based on contrast learning and discrete cosine transform, which can adapt to various open scenes, and finally successfully distinguish abnormal anomaly detection in different scenes.

KV database(C/C++)

Oct.2023

- **Multithreading | Memory reclamation mechanism**
- The project mainly mimics Redis, building a small and medium-sized database from scratch that can be used in a real production environment.

HONORS AND AWARDS

- The first prize of China College Student Computer Design Competition in Guangdong, 2024 Apr.2024
- The "Double Innovation Star" scholarship second prize for the 2022-2023 academic year at Shenzhen University Oct.2023
- The "Learning Star" scholarship second prize for the 2022-2023 academic year at Shenzhen University. Oct.2023
- The third prize of the C/C++ group of the 14th Blue Bridge Cup National Competition Jun.2023

Certificate & SKILLS

Certificate: College English Test-4

IT: Proficient in SQL, Python, Java, HTML, CSS, JavaScript, C/C++

Language: Chinese(native), English (Fluent)
